

DIARY NOTES

Executive Director-Comptroller

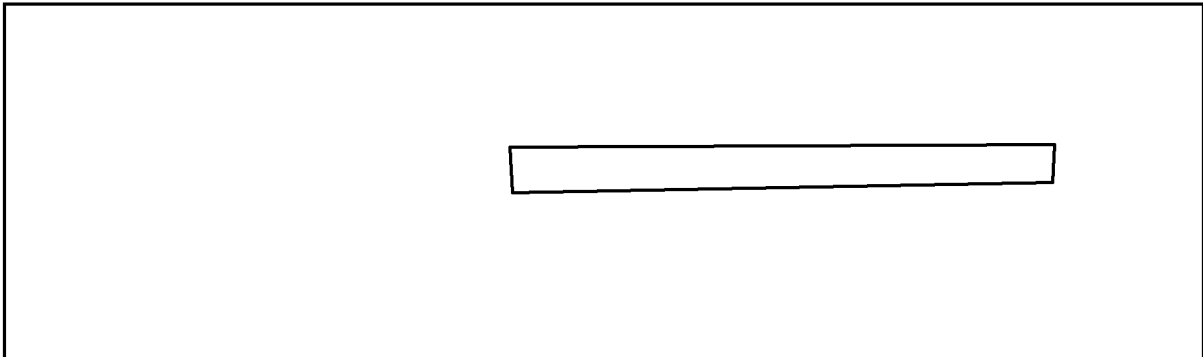

*TW*

19 November 1965

25X1

2. John Macy telephoned to say that we might get some publicity from the incident involving White House Fellow Charles M. Maguire inasmuch as Maguire said that a Newsweek reporter was pressing him for details. I told John that we hoped this would not happen but we would have no comment should we get any inquiries. I have reported this to Dick Helms. (See my Memorandum for the Record.)

4. I talked with Dick Helms about the following:

a. We discussed standardizing the format of many of our publications and in particular giving the Agency, rather than DD/I or DD/S&T, credit for the publication. He was all for this and plans to ask [redacted] to take a look at it. He requested that I remind him from time to time that he wants to request [redacted] to do this.

25X1

b. I suggested to Dick that we might ask Bud Wheelon to fly a full-scale dry run mission with the OX including running the cameras full time and delivery of the take to NPIC for processing. He thinks that this may be a good idea and asked me to talk with Bud about it.

5. I talked to Dick Helms about a date for [ ] to  
replace [ ] He now thinks the change should be made  
about 1 January 1966. I reported to him on my conversation of  
yesterday with Jack, and he agreed completely that this job is  
not Jack's cup of tea. He asked me to talk with [ ]  
about it.
